BRODY MODE · THIRD-PARTY RESOURCE MAPPING

Musculoskeletal & Skin

Every third-party video and article the schedule assigns in this unit, and the Brody week it is assigned to.

COURSE SYSTEMS
Musculoskeletal, Dermatology

UNIT RUNS
Monday, October 19, 2026 → Monday, November 9, 2026

TOTAL ASSIGNED
591 videos (102.5 h) + 272 articles

QUIZZES / CHECKPOINTS
Friday, October 23, 2026 · Friday, October 30, 2026

> **How to read this.** The unit is divided into Brody content weeks. Each week lists the course's own lectures for that week — each with the resources that teach it, or the reason none do — then every third-party video and article mapped to it, grouped by resource. The scheduler's rule is that a week's videos are finished within that week, before that week's quiz — so this table is also the deadline structure.
>
> Runtimes are the publishers' own. Hours are video time only: they exclude question banks, Anki and review. The 272 UWorld Library articles are written material with no runtime, so they carry no hours and are scheduled by a separate count per day rather than by time.
>
> Every video in this unit is explicitly mapped to a week, and every mapping points at a video that exists in the catalog. Nothing fell through to a default.

Lecture coverage

BRODY LECTURES	COUNT
Taught by at least one resource in this map	37
Partly covered — something examinable in the lecture is in no resource	3
Examinable, but taught by none of the resources	3
Not board material (PBL, professional development, case sessions)	4
Total	**47**

Gaps and partial coverage (6)

Week 1 · Medical Disorders Presenting as Psychiatric Disorders — nothing addresses medical mimics of psychiatric illness as a topic; delirium is the nearest, studied in Nervous & Sensory.

Week 1 · SDOH V (Disability Access) — social determinants / disability access — no resource in the six covers it.

Week 2 · Anti-gout Drugs and Dermatologic Drugs (2 of 2) — dermatologic drugs as a topic (retinoids, topical steroids, calcineurin inhibitors) are in none of the six resources; only imiquimod and the antifungals (terbinafine, griseofulvin) have videos.

Week 2 · Family Care-Giving — caregiving / caregiver burden — no resource in the six covers it.

Week 3 · Fever of Unknown Origin — no resource covers FUO itself; the differential (TB, Still disease, vasculitis, neutropenic fever) is covered piecemeal.

Week 3 · Flipped Classroom. Diathesis-Stress Model — the diathesis-stress model of psychopathology — no resource in the six covers it.

By week

Thromboangiitis Obliterans	10m

Anatomy — Pectoral Region & Axilla

Blood Vessels	12m
Clinical - Erb Palsy	12m
Clinical - Klumpke Palsy	9m
Clinical - Saturday Night Palsy & Long Thoracic Nerve Lesion	7m
Lymphatics of the Chest, Breast, & Axilla	19m
Muscles	13m
Nerves - Brachial Plexus (Part 1)	14m
Nerves - Brachial Plexus (Part 2)	7m
Osteology of the Pectoral Girdle	13m
Practice Questions	13m
Sternoclavicular & Acromioclavicular Joints	10m

Anatomy — Shoulder & Scapular Region

Blood Vessels	11m
Clinical - Rotator Cuff Injury	12m
Clinical - Scapular Anastomoses	13m
Clinical - Shoulder Dislocations	6m
Clinical - Subacromial Bursitis	8m
Glenohumeral Joint	13m
Muscles	16m
Nerves	9m
Practice Questions	13m
Spaces of the Upper Limb	8m

Anatomy — Anterior & Posterior Arm, Elbow Joint

Blood Vessels	10m
Clinical - Elbow Joint Dislocation & Radial Head Subluxation	8m
Clinical - Humerus Fractures	12m
Elbow Joint	13m
Lymphatics of the Upper Limb	14m
Muscles	13m
Nerves (Part 1)	10m
Nerves (Part 2)	7m
Osteology of the Humerus, Radius, & Ulna	10m

Anatomy — Hand

Blood Vessels & Blood Supply	10m
Carpals, Metacarpals, & Phalanges	9m
Clinical - Carpal Tunnel Syndrome	6m
Clinical - Scaphoid & Boxer's Fracture	3m
Muscles & Functions	21m
Nerves & Innervations	8m
Practice Questions	4m
Radiology - Upper Limb MRI	18m
The Carpal Tunnel: Osteology & Contents	8m
Wrist Joint	8m

Skeletal Muscle

Board-style Question Breakdown	10m
Malignant Hyperthermia	6m
Metabolic Exercise Physiology	10m
Muscle Contraction and Relaxation	7m
Muscle Proprioception	14m
Sarcomere	12m
Skeletal Muscle - Overview	12m
Skeletal Muscle Depolarization	9m

Primary Bone Tumors

Board-style Question Breakdown	6m
Chondrosarcoma	7m
Ewing Sarcoma	8m
Giant Cell Tumor (Osteoclastoma)	8m
Osteoblastoma	6m
Osteochondroma & Enchondroma	8m
Osteoma & Osteoid Osteoma	7m
Osteosarcoma	12m
Primary Bone Tumors Summary	11m

Histology — Muscles

Cardiac Muscle - Features & Cells	10m
Cardiac Muscle - Intercalated Discs	10m
Cardiac Muscle - Microscopic Appearance	7m
Cardiac Muscle - Overview & Practice	7m
Muscle Tissue Compare & Contrast	6m
Skeletal Muscle - Cells	14m
Skeletal Muscle - Contraction & Striations	8m
Skeletal Muscle - Features	8m
Skeletal Muscle - Microscopic Appearance	5m
Skeletal Muscle - Overview & Practice	10m
Skeletal Muscle - Sarcomeres	16m
Smooth Muscle - Contraction	5m
Smooth Muscle - Features & Cells	8m
Smooth Muscle - Microscopic Appearance	5m
Smooth Muscle - Overview & Practice	7m

Histology — Bone

Cartilage & Bone Case Study - Achondroplasia	15m
Endochondral Ossification - Bone & Cartilage Repair	3m
Endochondral Ossification - Epiphyseal Growth Plate	8m
Endochondral Ossification - Epiphyseal Growth Plate Zones	9m
Endochondral Ossification - Epiphyseal Line	4m
Endochondral Ossification - Introduction	23m
Endochondral Ossification - Overview & Practice	13m
Features - Appositional Growth	4m
Features - Functions & Composition	10m
Features - Intramembranous Ossification	11m
Features - Osteoblasts	4m
Features - Osteoclasts	5m
Features - Osteocytes	5m
Features - Osteoprogenitor Cells	3m
Features - Overview	8m
Features - Practice	8m
Organization - Calcium Regulation	7m
Organization - Compact Bone	15m
Organization - Overview	10m
Organization - Periosteum & Endosteum	10m
Organization - Practice	8m
Organization - Spongy Bone	9m

Histology — Cartilage

Features - Cartilage Formation	10m
Features - Cartilage Growth	9m
Features - Functions & ECM	7m
Features - Overview & Practice	12m
Types - Elastic & Fibrocartilage	7m
Types - Hyaline & Articular	11m
Types - Overview & Practice	10m

Psychotic and Mood Disorders

Suicide	4m

WEEK 3 Spine, Limbs, Environment & Infection

335 items · 38.7 h

BRODY LECTURE	TAUGHT BY
PATH ✓ **Environmental Pathology**	**BC** Environmental Toxins and their Treatments **UW** Carbon monoxide poisoning · Cyanide poisoning · Lead poisoning · Heavy metal toxicity: Lead, iron, mercury, and arsenic · Arsenic poisoning · Heat stroke · Cold injuries · Electrical injuries, including lightning injuries · Radiation exposure · Drowning (submersion injury) · High altitude illness · Decompression illness · Snakebites · Spider bites · Arthropod bites and infestations
PATH · ID ✓ **Clinical Diagnosis of Infectious Diseases; Laboratory Practices**	**B&B** Virus Structures · Bacteria · Shapes and Stains · Bacterial Culture · Special Growth Requirements · Virulence · Growth and Genetics · Bacterial Identification **UW** Basic bacteriology: Structure, virulence factors, and genetics
PATH · ID ✓ **Immunocompromised Host**	**B&B** Protozoa · Antifungal Drugs · Antiviral Drugs · HIV · HIV CNS Infections · HIV Drugs · Opportunistic Fungal Infections **SkM** Nocardia asteroides · HIV Overview (Retroviridae) · HIV Life Cycle (Retroviridae) · Cytomegalovirus (Herpesviridae) · HHV-8 & Kaposi's Sarcoma (Herpesviridae) · Toxoplasma gondii · Candida albicans · Aspergillus fumigatus · Cryptococcus neoformans · Mucor spp. & Rhizopus spp. (Mucormycetes) · Pneumocystis jirovecii **SkP** NRTIs · NNRTIs · Protease Inhibitors · Maraviroc, Fusion Inhibitors, Integrase Inhibitors · Amphotericin & Flucytosine · Azoles · Ganciclovir, Valganciclovir, Foscarnet, Cidofovir **UW** Acute HIV infection · HIV lifecycle · HIV antiretroviral therapy (ART) and the immune reconstitution inflammatory syndrome (IRIS) · Pneumocystis jirovecii pneumonia · Candida infections · Aspergillosis · Cryptococcal meningoencephalitis · Cytomegalovirus (CMV) · Toxoplasmosis · Acute invasive fungal rhinosinusitis · Neutropenic fever · Solid organ transplant: Complications · Kaposi sarcoma
PATH · ID ✓ **Zoonotic Infections**	**B&B** Spirochetes · Zoonotic Infections **SkM** Borrelia burgdorferi · Borrelia recurrentis · Leptospira interrogans · Coxiella burnetii · Rickettsia Overview · Rickettsia prowazekii · Rickettsia rickettsii · Yersinia enterocolitica & pestis · Bacillus anthracis & cereus · Rabies Virus (Rhabdoviridae) · Ebolavirus & Marburgvirus (Filoviridae) · Tissue Nematodes: Dracunculus medinensis, Wuchereria bancrofti, Onchocerca volvulus, Toxocara canis, and Loa loa · Bartonella henselae · Brucella spp. · Francisella tularensis · Pasteurella multocida · Anaplasma phagocytophilum & Ehrlichia chaffeensis **UW** Bartonella henselae infections · Brucellosis · Ehrlichia and Anaplasma · Q fever (Coxiella burnetii infection) · Leptospirosis · Lyme disease · Rocky Mountain Spotted Fever · Yersinia pestis · Anthrax · Rabies · Animal and human bites · Cutaneous larva migrans
PATH · ID ✓ **Granulomatous Diseases**	**B&B** Mycobacteria · Fungal Pneumonias · Granulomatous Inflammation **SkM** Actinomyces israelii · Mycobacterium tuberculosis · Mycobacterium leprae · Mycobacterium avium intracellulare, Mycobacterium scrofulaceum, Mycobacterium marinum · Histoplasma capsulatum · Blastomyces dermatitidis · Coccidioides immitis · Paracoccidioides brasiliensis **SkP** Tuberculosis Drugs · Leprosy Drugs **UW** Tuberculosis · Nontuberculous mycobacteria (NTM) · Leprosy (Hansen disease): Mycobacterium leprae infection · Histoplasmosis · Blastomycosis ·

BRODY LECTURE	TAUGHT BY
	Coccidioidomycosis · Paracoccidioidomycosis · Sarcoidosis · Chronic granulomatous disease
CLIN APP ✓ **Back Pain**	**B&B** Lumbar Radiculopathy · Common Musculoskeletal Conditions **BC** Spine Anatomy · Spine Physical Exam · Spinal Radiculopathy · Spinal Stenosis · Vertebral Fracture · Vertebral Osteomyelitis · Spinal Epidural Abscess · Scoliosis · Board-style Question Breakdown · Divisions of the Vertebral Column · Regional Characteristics of Vertebrae · Joints of the Vertebral Column · Ligaments of the Vertebral Column · Sacrum & Coccyx · Superficial Back Muscles & Serratus Muscles · Rhomboids, Muscles of the Neck & Erector Spinae · Arteries & Nerves · Muscle Functions · Blood Supply & Innervations · Radiology - Spine · Clinical - Lumbar Puncture & Epidural Anesthesia · Clinical - Abnormal Curvatures of the Spine & Intervertebral Disc Herniation **UW** Low back pain · Cauda equina syndrome · Neck pain · Spondylosis, spondylolysis, and spondylolisthesis · Vertebral compression fracture · Spinal epidural abscess · Cervical spine clearance · Anatomy: Vertebrae · Anatomy: Layers of the back
CLIN APP ✓ **Pediatric Fractures**	**BC** Radial Head Subluxation · Pediatric Fractures · Developmental Dysplasia of the Hip (DDH) · Slipped Capital Femoral Epiphysis (SCFE) · Legg-Calvé-Perthes Disease · Patellofemoral Syndrome · Osgood-Schlatter Disease · Board-style Question Breakdown **UW** Fracture patterns in children · Nonaccidental trauma in children · Radial head subluxation · Slipped capital femoral epiphysis · Legg-Calvé-Perthes disease · Developmental dysplasia of the hip · Evaluation of pediatric hip pain · Transient synovitis · Osgood-Schlatter disease · Upper and lower extremity fractures
CLIN APP — **CBL Cases 6**	*case-based learning session; the cases are the school's own.*
CLIN APP · ID ½ **Fever of Unknown Origin**	*no resource covers FUO itself; the differential (TB, Still disease, vasculitis, neutropenic fever) is covered piecemeal.* **B&B** Malaria (Hematology & Renal) **SkM** Plasmodium: Infection & Lifecycle (Hematology & Renal) **UW** Tuberculosis · Adult-onset Still disease (week 2) · Neutropenic fever · Giant cell (temporal) arteritis (week 2)
PSYCH ✓ **Flipped Classroom. Difficult Encounters**	**B&B** Ego Defenses (Hematology & Renal) **BC** Interviewing Patients · Inclusive Interviewing
PSYCH ✓ **Ethical and Legal Issues in Psychiatry**	**UW** Medical decision-making capacity · Informed consent in medicine
PSYCH × **Flipped Classroom. Diathesis-Stress Model**	*the diathesis-stress model of psychopathology — no resource in the six covers it.*
ETHICS ✓ **Health Law & Policy**	**UW** Medical malpractice · Patient confidentiality and privacy · Informed consent in medicine
FOD — **PDRs**	*professional development session.*

B&B Boards & Beyond

34 · 9.6 h

Fungi

Antifungal Drugs	14m
Fungal Pneumonias	16m
Opportunistic Fungal Infections	24m

Parasites and Helminths

Antiviral Drugs	15m
HIV	19m
HIV CNS Infections	5m
HIV Drugs	16m
Protozoa	29m
Virus Structures	18m

Basics of Microbiology

Bacteria	22m
Bacterial Culture	15m
Bacterial Identification	17m
Growth and Genetics	16m
Shapes and Stains	12m
Special Growth Requirements	10m
Virulence	29m

Antibiotics

Beta Lactams	17m
Other Antibiotics	16m
Penicillins	23m
Protein Synthesis Inhibitors	21m
Sulfonamides	14m

Anatomy and Orthopedics

Brachial Plexus	19m
Hand	18m
Hip	15m
Knee	24m
Lumbar Radiculopathy	13m
Lumbosacral Plexus	19m
Shoulder and Elbow	18m
Wrist	15m

Pathology

Common Musculoskeletal Conditions	15m

General Topics

Granulomatous Inflammation	9m

Bacteria

Mycobacteria	11m
Spirochetes	15m
Zoonotic Infections	16m

SkM Sketchy Micro

36 · 4.5 h

Gram-Positive Branching Filamentous Rods

Actinomyces israelii	3m
Nocardia asteroides	7m

Gram-Negative Bacilli: Zoonotics

Anaplasma phagocytophilum & Ehrlichia chaffeensis	6m
Bartonella henselae	4m
Brucella spp.	5m
Francisella tularensis	4m
Pasteurella multocida	4m

Opportunistic Fungal Infections

Aspergillus fumigatus	11m
Candida albicans	13m
Cryptococcus neoformans	9m
Mucor spp. & Rhizopus spp. (Mucormycetes)	6m
Pneumocystis jirovecii	6m

Gram-Positive Bacilli

Bacillus anthracis & cereus	10m

Systemic Mycoses

Blastomyces dermatitidis	6m
Coccidioides immitis	7m
Histoplasma capsulatum	10m
Paracoccidioides brasiliensis	5m

Spirochetes

Borrelia burgdorferi	8m
Borrelia recurrentis	6m
Leptospira interrogans	4m

Gram-Indeterminate Bacteria

Coxiella burnetii	5m
Rickettsia Overview	4m
Rickettsia prowazekii	4m
Rickettsia rickettsii	4m

DNA Viruses

- Cytomegalovirus (Herpesviridae) 12m
- HHV-8 & Kaposi's Sarcoma (Herpesviridae) 7m

RNA Viruses: Negative Sense

- Ebolavirus & Marburgvirus (Filoviridae) 5m
- Rabies Virus (Rhabdoviridae) 11m

RNA Viruses: Positive Sense

- HIV Life Cycle (Retroviridae) 9m
- HIV Overview (Retroviridae) 15m

Mycobacteria

- Mycobacterium avium intracellulare, Mycobacterium scrofulaceum, Mycobacterium marinum 7m
- Mycobacterium leprae 9m
- Mycobacterium tuberculosis 17m

Helminths: Nematodes

- Tissue Nematodes: Dracunculus medinensis, Wuchereria bancrofti, Onchocerca volvulus, Toxocara canis, and Loa loa 11m

Protozoa of the CNS

- Toxoplasma gondii 9m

Gram-Negative Bacilli: Enteric Tract

- Yersinia enterocolitica & pestis 8m

SkP Sketchy Pharm

25 · 4.4 h

Inhibitors of Bacterial Protein Synthesis

- Aminoglycosides 13m
- Chloramphenicol 5m
- Clindamycin 11m
- Linezolid 7m
- Macrolides 9m
- Tetracyclines 13m

Antifungals

- Amphotericin & Flucytosine 12m
- Azoles 12m

Cell Wall & Membrane-Active Antibiotics

- Ampicillin, Amoxicillin, Piperacillin, Ticarcillin 13m
- Cephalosporins 15m
- Daptomycin 6m
- Monobactams & Carbapenems 9m
- Nafcillin, Oxacillin, Methicillin, Dicloxacillin 6m
- Penicillin 13m
- Vancomycin 11m

Other Antibiotics

- Fluoroquinolones 12m
- Metronidazole 9m
- Trimethoprim/Sulfamethoxazole 17m

Other Antivirals

- Ganciclovir, Valganciclovir, Foscarnet, Cidofovir 12m

Antimycobacterials

- Leprosy Drugs 7m
- Tuberculosis Drugs 17m

HIV Antivirals

- Maraviroc, Fusion Inhibitors, Integrase Inhibitors 10m
- NNRTIs 5m
- NRTIs 12m
- Protease Inhibitors 7m

BC Bootcamp

137 · 20.2 h

Anatomy — Foot

Ankle Joint	8m
Blood Supply & Innervations	15m
Clinical - Ankle Joint Injuries	8m
Foot Bones	10m
Muscle Functions	8m
Muscles of the Plantar Foot	12m
Osteology & Joints of the Foot	10m
Plantar Ligaments & Muscles of the Dorsal Foot	5m
Practice Questions	1m
Veins, Arteries & Nerves	9m

Foot & Ankle

Ankle Sprain	7m
Board-style Question Breakdown	11m
Foot & Ankle Anatomy	8m
Foot Deformities	10m
Plantar Fasciitis	7m
Stress Fractures	8m

Anatomy — Gluteal Region, Posterior Thigh, Popliteal Fossa

Arteries	12m
Blood Supply & Innervations	19m
Clinical - Avulsion Fracture of Hip Bone & Hamstring Muscles	3m
Clinical - Gluteal Region Injuries	12m
Hip Joint	6m
Ligaments of the Pelvic Girdle	5m
Ligaments, Ischioanal Fossa, Pudendal Canal, Adductor Hiatus	10m
Muscle Functions	11m
Muscles of the Gluteal Region	5m
Muscles of the Posterior Thigh	5m
Nerves	8m
Os Coxa	12m
Practice Questions	1m

Anatomy — Back

Arteries & Nerves	4m
Blood Supply & Innervations	18m
Clinical - Abnormal Curvatures of the Spine & Intervertebral Disc Herniation	11m
Clinical - Lumbar Puncture & Epidural Anesthesia	6m
Divisions of the Vertebral Column	6m
Joints of the Vertebral Column	6m
Ligaments of the Vertebral Column	7m
Muscle Functions	13m
Radiology - Spine	15m
Regional Characteristics of Vertebrae	9m
Rhomboids, Muscles of the Neck & Erector Spinae	11m
Sacrum & Coccyx	6m
Superficial Back Muscles & Serratus Muscles	9m

Anatomy — Anterior & Medial Thigh, Knee

Arteries & Veins	6m
Blood Supply & Innervations	17m
Clinical - Avascular Necrosis of the Femoral Head	4m
Clinical - Femoral Sheath & Hernia	5m
Clinical - Knee Joint Injuries	12m
Femoral Triangle, Adductor Canal & Adductor Hiatus	5m
Femur	7m
Knee Joint	8m
Knee Joint (2)	5m
Ligaments & Trochanteric Bursa	4m
Lymphatics of the Lower Limb	19m
Muscle Functions	12m
Muscles of the Anterior & Medial Thigh	10m
Nerves of the Lumbosacral Plexus	8m
Practice Questions	1m
Quadriceps & Pes Anserinus	8m
Radiology - Lower Limb MRI	18m

Anatomy — Leg

Arteries, Veins, & Nerves	10m
Blood Supply & Innervations	16m
Clinical - Fracture of the Fibular Neck	4m
Clinical - Injury to Triceps Surae Muscle	6m
Lateral/Anterior Compartment Muscles & Retinacula	11m
Muscle Functions	11m
Osteology, Interosseous Membrane, & Interosseous Space	3m
Posterior Compartment Muscles	12m
Practice Questions	1m
Tibia & Fibula	7m

Hip & Knee

Avascular Necrosis	9m
Board-style Question Breakdown	6m
Femoral Neck Fracture	8m
Hip Anatomy	5m
Hip Dislocations	9m
Hip Physical Exam	11m
Iliotibial Band Syndrome	7m
Knee Anatomy	7m
Knee Examination	7m
Knee Ligament Injuries	12m
Limb Compartment Syndrome	6m
Prepatellar Bursitis	5m
Psoas Abscess	8m

Brachial Plexus Nerves & Lesions

Axillary Nerve	7m
Board-style Question Breakdown	11m
Brachial Plexus Overview	8m
Erb Palsy	9m
Klumpke Palsy	9m
Median Nerve	10m
Musculocutaneous Nerve	6m
Radial Nerve	10m
Thoracic Outlet Syndrome	9m
Ulnar Nerve	9m
Winged Scapula	7m

Spine

Board-style Question Breakdown	7m
Scoliosis	9m
Spinal Epidural Abscess	10m
Spinal Radiculopathy	11m
Spinal Stenosis	13m
Spine Anatomy	8m
Spine Physical Exam	8m
Vertebral Fracture	11m
Vertebral Osteomyelitis	11m

Shoulder & Elbow

Board-style Question Breakdown	16m
Clavicle Fractures	6m
Elbow Anatomy	8m
Epicondylitis	8m
Humerus Fractures	6m
Rotator Cuff Tear	6m
Shoulder Anatomy	8m

Wrist & Hand

Board-style Question Breakdown	13m
Carpal Tunnel Syndrome	10m
De Quervain Tenosynovitis	8m
Distortions of the Hand	12m
Dupuytren Contracture	8m
Finger Injuries	10m
Fractures & Dislocations	11m
Ganglion Cyst	5m
Guyon Canal Syndrome	8m
Wrist & Hand Anatomy	11m

Lower Extremity Nerves

Board-style Question Breakdown	10m
Common, Deep & Superficial Peroneal (Fibular) Nerves	10m
Femoral & Sciatic Nerve	10m
Iliohypogastric, Genitofemoral & Lateral Femoral Cutaneous Nerves	9m
Obturator & Pudendal Nerve	9m
Superior & Inferior Gluteal Nerves	9m
Tibial Nerve	8m

Childhood Musculoskeletal Pathology

Board-style Question Breakdown	9m
Developmental Dysplasia of the Hip (DDH)	12m
Legg-Calvé-Perthes Disease	9m
Osgood-Schlatter Disease	9m
Patellofemoral Syndrome	10m
Pediatric Fractures	14m
Radial Head Subluxation	10m
Slipped Capital Femoral Epiphysis (SCFE)	10m

Side Effects and Toxins

Environmental Toxins and their Treatments	10m

Communication

Inclusive Interviewing	12m
Interviewing Patients	7m

Yersinia pestis	—

Mapping check: clean

All 863 videos are explicitly mapped to a week, and all 863 mappings point at videos that exist in the catalog.

Generated 2026-10-23 from BRODY MODE build 2026-10-20c against a catalog of 3669 videos. Block id `msk-skin`. Produced by `tools/generators/mk_mapping_pdf.mjs`, which reads the mapping out of the running app rather than restating it, so this document and the schedule students see cannot disagree.
Pulled in from outside the unit's systems by an explicit include: Anesthesia · General Topics · Inhaled Anesthetics; Anesthesia · General Topics · Intravenous Anesthetics; Anesthesia · General Topics · Local Anesthetics; Anesthesia · General Topics · Neuromuscular Blockers; Neurology · Anesthetics & Analgesics · IV Anesthetics; Neurology · Anesthetics & Analgesics · Inhaled Anesthetics & Dantrolene; Neurology · Anesthetics & Analgesics · Local Anesthetics; Psychiatry · Pathology · Personality Disorders; Psychiatry · Psychology · Conditioning and Transference; Psychiatry · Personality Disorders · Cluster A Personality Disorders; Psychiatry · Personality Disorders · Cluster B Personality Disorders; Psychiatry · Personality Disorders · Cluster C Personality Disorders; Psychiatry · Psychology · Transtheoretical Model of Change; Psychiatry · Pharmacology · Psychiatric Emergencies; Psychiatry · Psychotic and Mood Disorders · Suicide; Immunology · Autoimmune Disorders · Rheumatoid Arthritis; Immunology · Autoimmune Disorders · Systemic Lupus Erythematosus; Immunology · Autoimmune Disorders · Scleroderma; Immunology · Autoimmune Disorders · Sjögren Syndrome; Immunology · Autoimmune Disorders · Vasculitis; Immunology · Autoimmune Disorders · Seronegative Spondyloarthritis; Immunology · Inflammatory Disorders · Gout; Immunology · Inflammatory Disorders · CPPD; Immunology · Inflammatory Disorders · Gout Drugs; Immunology · Pharmacology · Glucocorticoids and NSAIDs; Immunology · Pharmacology · Immunosuppressive Drugs; Pathology · Inflammation, Inflammatory Disorders, and Healing · 2.5 Wound Healing; Pathology · General Topics · Wound Healing and Scar; Hematology · Antimetabolites · Methotrexate, Leucovorin, 5-Fluorouracil, Hydroxyurea; Hematology · Antimetabolites · Azathioprine, 6-Mercaptopurine, Mycophenolate Mofetil; Hematology · Anti-Inflammatory · TNF Inhibitors; Endocrinology · Thyroid, Parathyroid, Adrenal · Glucocorticoids; Endocrinology · Thyroid, Parathyroid, Adrenal · Bisphosphonates, Raloxifene, Denosumab, Calcitonin; Endocrinology · Thyroid, Parathyroid, Adrenal · Teriparatide, Vitamin D, Cinacalcet, Sevelamer; Neurology · Muscle Relaxants · Skeletal Muscle Relaxants; Behavioral Science · Communication · Interviewing Patients;

Infectious Disease · Gram-Positive Cocci · Staphylococcus epidermidis & saprophyticus; Infectious Disease · Gram-Positive Cocci · Streptococcus pyogenes (Group A Strep); Infectious Disease · Gram-Positive Bacilli · Bacillus anthracis & cereus; Infectious Disease · Gram-Positive Bacilli · Clostridium perfringens; Infectious Disease · Gram-Positive Branching Filamentous Rods · Actinomyces israelii; Infectious Disease · Gram-Positive Branching Filamentous Rods · Nocardia asteroides; Infectious Disease · Gram-Negative Bacilli: Enteric Tract · Yersinia enterocolitica & pestis; Infectious Disease · Gram-Negative Bacilli: Respiratory Tract · Pseudomonas aeruginosa; Infectious Disease · Gram-Negative Bacilli: Zoonotics · Bartonella henselae; Infectious Disease · Gram-Negative Bacilli: Zoonotics · Brucella spp.; Infectious Disease · Gram-Negative Bacilli: Zoonotics · Francisella tularensis; Infectious Disease · Gram-Negative Bacilli: Zoonotics · Pasteurella multocida; Infectious Disease · Gram-Negative Bacilli: Zoonotics · Anaplasma phagocytophilum & Ehrlichia chaffeensis; Infectious Disease · Mycobacteria · Mycobacterium tuberculosis; Infectious Disease · Mycobacteria · Mycobacterium leprae; Infectious Disease · Mycobacteria · Mycobacterium avium intracellulare, Mycobacterium scrofulaceum, Mycobacterium marinum; Infectious Disease · Spirochetes · Borrelia burgdorferi; Infectious Disease · Spirochetes · Borrelia recurrentis; Infectious Disease · Spirochetes · Leptospira interrogans; Infectious Disease · Gram-Indeterminate Bacteria · Coxiella burnetii; Infectious Disease · Gram-Indeterminate Bacteria · Rickettsia Overview; Infectious Disease · Gram-Indeterminate Bacteria · Rickettsia prowazekii; Infectious Disease · Gram-Indeterminate Bacteria · Rickettsia rickettsii; Infectious Disease · RNA Viruses: Positive Sense · Rubella Virus (Matonaviridae); Infectious Disease · RNA Viruses: Positive Sense · HIV Overview (Retroviridae); Infectious Disease · RNA Viruses: Positive Sense · HIV Life Cycle (Retroviridae); Infectious Disease · RNA Viruses: Negative Sense · Measles, Mumps, Parainfluenza Viruses (Paramyxoviridae); Infectious Disease · RNA Viruses: Negative Sense · Rabies Virus (Rhabdoviridae); Infectious Disease · RNA Viruses: Negative Sense · Ebolavirus & Marburgvirus (Filoviridae); Infectious Disease · DNA Viruses · Herpes Simplex Virus Types 1 & 2 (Herpesviridae); Infectious Disease · DNA Viruses · Cytomegalovirus (Herpesviridae); Infectious Disease · DNA Viruses · Varicella-Zoster Virus (Herpesviridae); Infectious Disease · DNA Viruses · HHV-6 & Roseola (Herpesviridae); Infectious Disease · DNA Viruses · HHV-8 & Kaposi's Sarcoma (Herpesviridae); Infectious Disease · DNA Viruses · Human Papillomavirus (Papillomaviridae); Infectious Disease · DNA Viruses · Parvovirus B19 (Parvoviridae); Infectious Disease · DNA Viruses · Smallpox Virus, Cowpox Virus, and Molluscum Contagiosum Virus (Poxviridae); Infectious Disease · Systemic Mycoses · Histoplasma capsulatum; Infectious Disease · Systemic Mycoses · Blastomyces dermatitidis; Infectious Disease · Systemic Mycoses · Coccidioides immitis; Infectious Disease · Systemic Mycoses · Paracoccidioides brasiliensis; Infectious Disease · Cutaneous Mycoses · Malassezia furfur; Infectious Disease · Cutaneous Mycoses · Epidermophyton spp., Trichophyton spp., Microsporum spp. (Dermatophytes); Infectious Disease · Cutaneous Mycoses · Sporothrix schenckii; Infectious Disease · Opportunistic Fungal Infections · Candida albicans; Infectious Disease · Opportunistic Fungal Infections · Aspergillus fumigatus; Infectious Disease · Opportunistic Fungal Infections · Cryptococcus neoformans; Infectious Disease · Opportunistic Fungal Infections · Mucor spp. & Rhizopus spp. (Mucormycetes); Infectious Disease · Opportunistic Fungal Infections · Pneumocystis jirovecii; Infectious Disease · Protozoa of the CNS · Toxoplasma gondii; Infectious Disease · Protozoa of the Blood · Leishmania braziliensis & donovani; Infectious Disease · Helminths: Nematodes · Tissue Nematodes: Dracunculus medinensis, Wuchereria bancrofti, Onchocerca volvulus, Toxocara canis, and Loa loa; Infectious Disease · Ectoparasites · Scabies, Lice, Crabs; Infectious Disease · Basics of Microbiology · Bacteria; Infectious Disease · Basics of Microbiology · Shapes and Stains; Infectious Disease · Basics of Microbiology · Bacterial Culture; Infectious Disease · Basics of Microbiology · Special Growth Requirements; Infectious Disease · Basics of Microbiology · Virulence; Infectious Disease · Basics of Microbiology · Growth and Genetics; Infectious Disease · Basics of Microbiology · Bacterial Identification; Infectious Disease · Bacteria · Staphylococci; Infectious Disease · Bacteria · Streptococci; Infectious Disease · Bacteria · Spirochetes; Infectious Disease · Bacteria · Zoonotic Infections; Infectious Disease · Bacteria · Mycobacteria; Infectious Disease · Antibiotics · Penicillins; Infectious Disease · Antibiotics · Beta Lactams; Infectious Disease · Antibiotics · Sulfonamides; Infectious Disease · Antibiotics · Protein Synthesis Inhibitors; Infectious Disease · Antibiotics · Other Antibiotics; Infectious Disease · Fungi · Fungal Pneumonias; Infectious Disease · Fungi · Fungal Skin Infections; Infectious Disease · Fungi · Opportunistic Fungal Infections; Infectious Disease · Fungi · Antifungal Drugs; Infectious Disease · Parasites and Helminths · Protozoa; Infectious Disease · Parasites and Helminths · Virus Structures; Infectious Disease · Parasites and Helminths · DNA Viruses; Infectious Disease · Parasites and Helminths · Herpes Viruses; Infectious Disease · Parasites and Helminths · HIV; Infectious Disease · Parasites and Helminths · HIV CNS Infections; Infectious Disease · Parasites and Helminths · HIV Drugs; Infectious Disease · Parasites and Helminths · Antiviral Drugs; Infectious Disease · Cell Wall & Membrane-Active Antibiotics · Penicillin; Infectious Disease · Cell Wall & Membrane-Active Antibiotics · Nafcillin, Oxacillin, Methicillin, Dicloxacillin; Infectious Disease · Cell Wall & Membrane-Active Antibiotics · Ampicillin, Amoxicillin, Piperacillin, Ticarcillin; Infectious Disease · Cell Wall & Membrane-Active Antibiotics · Cephalosporins; Infectious Disease · Cell Wall & Membrane-Active Antibiotics · Monobactams & Carbapenems; Infectious Disease · Cell Wall & Membrane-Active Antibiotics · Vancomycin; Infectious Disease · Cell Wall & Membrane-Active Antibiotics · Daptomycin; Infectious Disease · Inhibitors of Bacterial Protein Synthesis · Tetracyclines; Infectious Disease · Inhibitors of Bacterial Protein Synthesis · Macrolides; Infectious Disease · Inhibitors of Bacterial Protein Synthesis · Clindamycin; Infectious Disease · Inhibitors of Bacterial Protein Synthesis · Chloramphenicol; Infectious Disease · Inhibitors of Bacterial Protein Synthesis · Linezolid; Infectious Disease · Inhibitors of Bacterial Protein Synthesis · Aminoglycosides; Infectious Disease · Antimycobacterials · Tuberculosis Drugs; Infectious Disease · Antimycobacterials · Leprosy Drugs; Infectious Disease · Other Antibiotics · Trimethoprim/Sulfamethoxazole; Infectious Disease · Other Antibiotics · Fluoroquinolones; Infectious Disease · Other Antibiotics · Metronidazole; Infectious Disease · Antifungals · Amphotericin & Flucytosine; Infectious Disease · Antifungals · Azoles; Infectious Disease · Antifungals · Griseofulvin, Terbinafine, Echinocandins; Infectious Disease · HIV Antivirals · NRTIs; Infectious Disease · HIV Antivirals · NNRTIs; Infectious Disease · HIV Antivirals · Protease Inhibitors; Infectious Disease · HIV Antivirals · Maraviroc, Fusion Inhibitors, Integrase Inhibitors; Infectious Disease · Other Antivirals · Acyclovir,

Valacyclovir, Famciclovir; Infectious Disease · Other Antivirals · Ganciclovir, Valganciclovir, Foscarnet, Cidofovir; Infectious Disease · Antifungals · Allylamines, Echinocandins, and Polyenes.
Resource titles and runtimes belong to their publishers and are listed for scheduling reference only.
